

GLOUCESTERSHIRE | BEER

Bobby Beer was born from the desire to create a true, independently brewed English lager. Brewed with passion and care, they have fresh ideas about what great British lager can be. Taking inspiration from the great lager brewing European powerhouses, Bobby Beer uses Czech and German hops, and 'lagers' their beer in cool tanks for over a month. This results in a high quality, great tasting, authentic and easy-drinking British Pilsner-style lager.
