

RAMSBURY

BREWERY & DISTILLERY

WILTSHIRE | BEER

Ramsbury Brewery & Distillery is situated in beautiful countryside near Marlborough in Wiltshire and is part of the Ramsbury Estate where they extensively farm cereals and other crops, produce smoked fish & game and their own cold pressed oils. At the purpose-built brewery, Ramsbury brew a range of delicious ales, using barley grown on the Estate and malted by nearby Warminster Maltings. Hops from around the world include home-grown British varieties. In addition to the brewery, Ramsbury have invested in their own distillery in which they distil their own base spirit from a single variety of wheat grown on the Estate, from which they produce their own craft Ramsbury Vodka and more recently, their Ramsbury Gin.

	Style	ABV	Case	Individual
--	-------	-----	------	------------

Honeybee Nectar

A light golden ale brewed in collaboration with North Wessex Down Area of Outstanding Natural Beauty, in which all the ingredients save the hops are sourced within the AONB, including local Ramsbury honey.

Flint Knapper

A select blend of pale ale and chocolate malts, and Golding hops, combine to give this smooth ale a rich amber colour and a taste with malty overtones. Named in celebration of 'Flint knapping', the ancient process of making simple tools from flint.

Amber Ale

4.2%

Ramsbury Gold

A rich golden coloured beer produced by blending pale ale malt, crystal malt and a small amount of torrified wheat, plus Goldings and Celeia hops, given a light hoppy aroma and taste. Ramsbury's first ale and favourite amongst Ramsbury followers.
