HAMPSHIRE | SPIRITS

Bitter Union is a Hampshire based artisan producer of craft bitters. Inspired by the beauty of bitterness and its ability to enhance flavour, Bitter Union was born to complement and unite great drinks. Adding a few dashes to a wide range of drinks provides depth and length of flavour whilst leaving a pleasant aromatic twist. Consider it like salt and pepper for your drink - just season to taste.

Doing things on a small scale gives the ability to do things differently and better. Bitter Union's bitters are 100% natural, made with just botanicals and fruit macerated in good quality alcohol - no added sugars, artificial flavourings or colourings. All citrus used comes from fresh fruit - it's time intensive, but it makes a difference as it means more essential oils and a more natural flavour.
