

XT is an exciting independent craft brewery started in 2011 by Russ and Gareth on the Oxfordshire-Buckinghamshire border near Thame. Their brewery is as eco-friendly and sustainable as possible, recycling nearly all of their waste products and spent raw materials which go to local farmers.

The brewery produces a range of core beers under the XT brand with a regular flow of 'specials' some of which are made available in bottle. Gareth and Russ also brew under the brand Animal Brewing Co, producing a range of limited edition seasonal specials using more unusual ingredients or brewing techniques.
